

# FULL STACK .NET DEVELOPER

*Full - Time, Contractual Employment*

Freson Bros., an Alberta owned and operated independent fresh food retailer, invites individuals with more than three years proven track record and experience in software development with strong object-oriented design and development backgrounds using C# and .NET framework. As a software developer, you will be involved in all aspects of system development lifecycle (SDLC) from development, testing and support:

- WPF / XAML / MVVM
- SQL Server / T-SQL
- ASP .NET / Web API / MVC
- Experience with advanced programming constructs such as multi-threaded programming, dependency injection, messaging systems, and distributed systems.

In addition, it is an asset to have the following experience in:

- Unit testing
- Writing REST APIs
- Microsoft SignalR
- Retail software
- UX design

The successful candidate is expected to possess and demonstrate the qualities that make a good developer, including excellent communication, analytical and problem solving skills, attention to detail, ability to take direction and work collaboratively with a small team and as a self-starter, able to work independently.

To the successful individual, we offer a competitive compensation package including benefits plan (for full-time) and family grocery discount.

If you are the person we are looking for, we invite you to forward your resume with a cover letter to:

**Ken Lovsin, Vice President - IT**
